

Pricing model & margin

White-label cost (paid to platform vendor) vs. your resale price at a 50% gross margin. For companies up to 10 employees.

50% gross margin → Your price = White-label cost × 2

PER-LINE PRICING

ITEM	YOUR COST (USD)	YOUR PRICE @ 50% MARGIN	YOUR MARGIN
Base platform (white-label + custom domain)	\$2,500	\$5,000	\$2,500
SOC 2 (Type I / II)	\$2,500	\$5,000	\$2,500
ISO 27001	\$2,500	\$5,000	\$2,500
GDPR	\$2,500	\$5,000	\$2,500
HIPAA	\$2,500	\$5,000	\$2,500
SOC 2 / ISO 27001 additional framework	\$1,500	\$3,000	\$1,500
GDPR / HIPAA additional framework	\$1,250	\$2,500	\$1,250

EXAMPLE BUNDLE — KAHU LOGIC (SOC 2 + ISO 27001 + GDPR)

Base platform	cost \$2,500 → price \$5,000
SOC 2 (first framework)	cost \$2,500 → price \$5,000
ISO 27001 (additional)	cost \$1,500 → price \$3,000
GDPR (additional)	cost \$1,250 → price \$2,500
Your total cost	\$7,750
Client price (50% margin)	\$15,500
Your margin	\$7,750

Simpler alternative: price every framework flat at \$5,000 (as in the Kahu quote) → client pays **\$15,000**, your cost \$7,750, margin **\$7,250 (~48%)**. Cleaner to quote, essentially the same margin.

AUDITOR FEES — PASS-THROUGH (NOT YOUR MARGIN)

FRAMEWORK	AUDIT MANDATORY?	EXTERNAL AUDITOR FEE (USD)
SOC 2	Yes	\$1,200 – \$1,500
ISO 27001	Yes	\$1,500
GDPR	No	\$1,500 (gap assessment)
HIPAA	No	\$1,500 (gap assessment)

Notes. Auditor / certification-body fees are charged by the independent audit firm and are billed to the client separately (pass-through at cost, or add a small handling margin) — keep them out of the platform price. • Pricing assumes companies up to 10 employees; add tiers for larger orgs. • "Separate DB: No" in the vendor plan — all white-label clients share the platform DB (isolated by org); offer a dedicated-DB tier as an enterprise upsell. • Figures exclude GST/taxes.
