RECOMMENDED ENGAGEMENT

SOC 2, ISO 27001 and GDPR share the same underlying controls and evidence. Running all three together on CompliBoss is the most cost-effective path — you collect evidence once and map it across every framework, which is why the per-framework price is lowest when all three are taken together.

BEST VALUE · ALL THREE FRAMEWORKS

SOC 2 + ISO 27001 + GDPR — platform & continuous monitoring

\$5,000 per framework when all three are taken together. 12-month term, continuous monitoring, and auditor-ready evidence for each framework.

\$15,000

USD · 3 × \$5,000 · platform only

FRAMEWORK PRICING — HOW IT SCALES

The CompliBoss platform price per framework depends on how many frameworks you run together. Fewer frameworks carry a higher implementation cost because evidence and controls can no longer be shared as broadly.

FRAMEWORKS SELECTED	PRICE PER FRAMEWORK	PLATFORM TOTAL (USD)
1 framework Single framework (SOC 2, ISO 27001 or GDPR). Implementation cost is +\$1,500 over the bundled rate.	\$6,500	\$6,500
2 frameworks Any two frameworks together. Implementation cost is +\$1,000 per framework over the bundled rate.	\$6,000	\$12,000
3 frameworks BEST VALUE SOC 2 + ISO 27001 + GDPR together. Bundled rate — lowest cost per framework.	\$5,000	\$15,000

INDEPENDENT AUDIT / CERTIFICATION (BILLED BY THE AUDIT PARTNER)

The formal audit is performed by **Percilchofe CPA LLC**, an independent AICPA-accredited audit firm — not by CompliBoss. We coordinate the audit and hand the auditor a complete, auditor-ready evidence package, which keeps their time (and their fee) to a minimum. Audit fees are paid directly to Percilchofe CPA LLC and are separate from the platform price above.

CERTIFICATION	AUDIT PARTNER	AUDITOR FEE PER CERTIFICATION (USD)
SOC 2 (Type I / II)	Percilchofe CPA LLC · AICPA-accredited	\$2,500
ISO 27001	Percilchofe CPA LLC	\$2,500
GDPR Independent GDPR audit & attestation performed by Percilchofe CPA LLC.	Percilchofe CPA LLC	\$2,500
